

Question 1

Agents and managers cannot create knowledge articles from Community questions

- ☐ True
- ☒ **False**

Question 2

Information about a customer's service contract is found in Knowledge.

- ☐ True
- ☒ **False**

Question 3

From what places in SN can an agent create a case? (Choose three.)

- ☒ **Customer Service Application**
- ☐ Contact
- ☒ **Account**
- ☐ Chat

Question 4

What are the conditions that matching rules are based on? (Choose two.)

- ☒ **Agent resources best suited to work on a case**
- ☐ Specific routing rules
- ☐ Filters set up in advanced work assignment
- ☒ **Specific case attributes**

Question 5

Matching rules enhance assignment capability by _____.

- ☒ **Matching best agent by availability**
- ☐ Providing dynamic matching of cases to groups or individuals
- ☐ Determining if account is a customer or partner
- ☐ Matching best agent by skill

Question 6

Special Handling Notes can apply to which one of the following based on specific attributes?

- ☐ Domain
- ☒ **Contact**
- ☐ Holiday
- ☐ VIP

Question 7

Predictive Intelligence improves Case management by:

- ☐ Predicting what values should have gone into empty fields in historical records
- ☐ Reducing the number of records needed to accurately predict a value
- ☐ Replacing legacy routing rules
- ☐ **Predicting Case values without manual intervention**

Question 8

Which of the following is a condition for matching rules?

- ☐ Agent domain
- ☐ Assignment
- ☐ Switching
- ☐ **Specific case attributes**

Question 9

What do blue circles in the timeline of a case form represent?

- ☐ Note
- ☐ Activity
- ☐ **State**
- ☐ Comment

Question 10

Predictive Intelligence improves triage quality by eliminating the guesswork. Predictive Intelligence supports which of the following decisions? (Choose two.)

- ☐ Case Escalation
- ☐ **Case Categorization**
- ☐ Case State
- ☐ **Case Prioritization**

Question 11

Which Business Rules are part of the Customer Service Management baseline configuration? (Choose two.)

- ☐ Apply Role by Customer
- ☐ **Auto Assessment**
- ☐ **Update Case Entitlement**
- ☐ Change Update to Close

Question 12

What are the Critical Success Factors that are related to CSM Suite Implementations? (Choose four.)

- ☐ **Define the Business Pain Points**
- ☐ **Provide consistent service to customers**

- **Have a clear understanding of the use cases**
- Define the number of hours needed to develop the associated requirements
- **Implementation is only as good as the underlying process**

Question 13

What should be emphasized when designing solutions? (Choose three.)

- **Minimize customizations**
- **Focus Out-of-the-box functionality**
- **Design for Scalability**
- Mobile friendly functionality

Question 14

What role does the Engagement Manager play before the Workshop?

- **Project Manager**
- Acts as intermediary
- Provides s to technical problems
- **Assists with technical requirements**

Question 15

What should be part of the pre-engagement collateral?

- Frequently Asked Questions (FAQ)
- **Scoping Guide**
- Customer Service roles template
- Stock Keeping Unit (SKU) and pricing sheet

Question 16

Articles can provide the following: (Choose three.)

- **Document current and known issues**
- **Provide s and responses to common issues or questions**
- Information about customer's service contract
- **Share product information**

Question 17

Contextual Search framework is used for providing Knowledge search results in which of these scenarios?

- Entering question in portal only
- Record Producer only
- **Both portal question entry and Record Producer**
- None of the above

Question 18

Which of the following are true regarding integrating a ServiceNow Knowledge base with external content? (Choose two.)

- ☐ **Imported external articles appear as attachments in ServiceNow**
- ☐ **Only applications that allow WebDAV connections can be integrated**
- ☐ The imported article will have the same category it had in the source knowledge base
- ☐ SharePoint blocks this integration

Question 19

Access to a Knowledge base or Article can be restricted based on a customer's assets and the product models using which of the following? (Choose two.)

- ☐ **Knowledge Product Entitlements**
- ☐ Data Policy
- ☐ ACL
- ☐ **User Criteria**

Question 20

What are some benefits that Knowledge Product Entitlement provide? (Choose three.)

- ☐ **Reduces call volume**
- ☐ **Makes it easier for Agents to manage case volume**
- ☐ **Allows access to Knowledge Articles that are related to products owned by a customer**
- ☐ Information about customer's service contract
- ☐ Focused product marketing

Question 21

What are the characteristics of Knowledge Categories?

- ☐ Shareable across KBs: Yes ; Multi-Level: No
- ☐ **Shareable across KBs: No ; Multi-Level: Yes**
- ☐ Shareable across KBs: No ; Multi-Level: No
- ☐ Shareable across KBs: Yes ; Multi-Level: Yes

Question 22

Users with the sn_customerservice.proxy_contact role can do which of the following? (Choose two.)

- ☐ Manage cases on behalf of customer service agents
- ☐ **Create cases on behalf of customers**
- ☐ Manage requests on behalf of customer service agents
- ☐ **Create requests on behalf of customers**
- ☐ Manage major incident communication on behalf of a customer service manager

Question 23

What is the purpose of a Catalog Item variable?

- Grants the customer the opportunity to ask a question
- Opens a wizard to help a customer fill in a case form
- Guides a customer by providing hints on case forms
- **Allows the customer or consumer to qualify their**

Question 24

What one of the following is optional when creating a Catalog workflow?

- Publishing the workflow
- Defining workflow activities
- **Managing workflow versions**
- Approving the workflow

Question 25

What module is used to create Case Record Producers?

- Case Record Producers
- Edit Records
- **Record Producers**
- Maintain Records

Question 26

Which one is NOT a dependency for the Customer Service Plugin?

- Task Activities
- Skills Management
- Openframe
- **Communities**

Question 27

ACME corporation wants to use ServiceNow CSM for supporting their customers through Twitter. What CSM entity would you recommend ACME to store the customer's Twitter profile details?

- Account
- Not supported
- **Social Profile**
- Consumer
- Personnel File

Question 28

Which social media channels are NOT available out-of-box?

- **LinkedIn**
- Twitter
- Facebook
- All of the above
- None of the above

Question 29

What is the equivalent of NOT selecting any group, when configuring multiple active configurations of OpenFrame?

- ☐ Selecting none of the groups
- ☒ **Selecting all the groups**
- ☐ Missing configuration
- ☐ Misconfigured

Question 30

How many outbound email accounts are supported in Customer Service Management?

- ☐ Two
- ☐ Unlimited
- ☒ **One**
- ☐ One per business service

Question 31

What are features of Customer Service Management? (Choose four.)

- ☐ Timed Audits
- ☒ **Service Entitlements**
- ☐ Demand Management
- ☐ Service Prospecting
- ☒ **Real-time SLAs**
- ☒ **Service Contracts**
- ☒ **Skills-based routing**

Question 32

What are the Forum User Types? (Choose three.)

- ☐ Admin
- ☒ **Registered**
- ☒ **Public**
- ☒ **Custom**
- ☐ Moderator

Question 33

Which of the following are true regarding the Community Portal application? (Choose two.)

- ☒ **It is available to any customer with a Community license**
- ☐ It is available by default with the Support and Service portals
- ☐ It is only available to CSM license holders
- ☒ **Most of the configuration does not require System Administrator role**

Question 34

If only one user reports a content for moderation, the content will be hidden.

- ☐ True
- ☐ **False**

Question 35

The available case types are: (Choose two.)

- ☐ Product Support
- ☐ **Order**
- ☐ **Product**
- ☐ Support

Question 36

What is required to enable the Follow the sun field on the Customer Service Case form?

- ☐ Nothing, it is a standard field
- ☐ The value property on the form must be set to true
- ☐ The plugin 'com.snc.csm_time_recording' needs to be activated
- ☐ **The value property on the form must be set to true and the field added to the case form**

Question 37

In the Customer Service Management space, what does the term asset management mean?

- ☐ Financial, contractual and inventory information of assets
- ☐ **Tracking products or services customers are using**
- ☐ Tables in the Asset application
- ☐ A set of business activities and processes used to track assets

Question 38

Which of the following roles cannot update a consumer's record?

- ☐ **sn_customerservice_agent**
- ☐ sn_customerservice_manager
- ☐ sn_customerservice.consumer_agent
- ☐ admin

Question 39

Major Issue Management uses which one of the following capabilities?

- ☐ Governance Risk and Control
- ☐ **Targeted Communications**
- ☐ Asset management
- ☐ Record producers

Question 40

What is required to synchronize fields from a parent to a child case(s)?

- ☐ **Major Issue Management needs to be installed and certain properties enabled**
- ☐ The advanced plugin (com.sns.pa.customer_service_advanced) needs to be activated
- ☐ No action required, this is a standard Customer Service Management feature
- ☐ The role of sn_customerservice.customer_case_manager must be assigned

Question 41

HOTSPOT - Match the definitions for roles relationships. A - A customer account, a partner, account, or both B - A supported external customer that, sells and supports one or more customers. C - A member of an account D - A person who purchases goods and services for personal use.

Image:

[Question41 \(binary/octet-stream\)](#)

- ☐ A - Partner; B - Account; C - Contact; D - Consumer.
- ☐ A - Partner; B - Account; C - Consumer; D - Contact.
- ☐ **A - Account; B - Partner; C - Contact; D - Consumer.**
- ☐ A - Account; B - Contact; C - Partner; D - Consumer.

Question 42

Which of the following functions can be completed when using the Field Service Management Application on a mobile device offline? (Choose three.)

- ☐ Manage requests
- ☐ **Execute assigned tasks**
- ☐ **Close work orders**
- ☐ Manage cases
- ☐ **Manage assets**

Question 43

Information in the Case Field 'Contact' is copied to which Incident Field?

- ☐ Contact
- ☐ User
- ☐ Customer
- ☐ **Caller**

Question 44

How many active OpenFrame configurations can you have on an instance?

- ☐ 2
- ☐ **Unlimited**
- ☐ 1
- ☐ 3

Question 45

What are common types of application record data that are imported during a CSM data migration? (Choose two.)

- ☐ **Knowledge Article**
- ☐ **Accounts**
- ☐ Chat
- ☐ Case

Question 46

Which are the key self-service functions of the Customer Support Portal? (Choose three.)

- ☐ **Community**
- ☐ **Knowledge Base**
- ☐ Open An Incident
- ☐ **Service Catalog**

Question 47

Which of the following are channels? (Choose two.)

- ☐ Contacts
- ☐ **Web**
- ☐ **Chat**
- ☐ Article

Question 48

Out-of-the-box, the consumer support portal (/csp) CANNOT be used for which one of the following actions?

- ☐ **Open an incident**
- ☐ Viewing knowledge articles
- ☐ Live chat
- ☐ Consumer self-registration

Question 49

The Customer Support Portal default configuration provides the following channels to interact with customers? (Choose two.)

- ☐ Web
- ☐ Social
- ☐ **Chat**
- ☐ **Email**

Question 50

HOTSPOT - Match the business rule to its function in the Self-Service Portal. A - After registration request submittal, shows info message to user. B - Shows message to remind users to enter a correct registration code. C - Validates the registration code and assigns the account associated with the registration code. D - Checks if the registration is valid based on the user's email address.

Image:

Question50 (binary/octet-stream)

- ☐ A - Validate registration; B - Display rule; C - Update account based on reg code; D - Display request message.
- ☐ A - Validate registration; B - Update account based on reg code; C - Display rule; D - Display request message.
- ☐ A - Update account based on reg code; B - Display rule; C - Display request message; D - Validate registration.
- ☐ **A - Display request message; B - Display rule; C - Update account based on reg code; D - Validate registration.**

Question 51

The ServiceNow Communities feature is only available for customers with ServiceNow Customer Services Management licenses.

- ☐ True
- ☐ **False**

Question 52

Read the use case below to determine if the customer service relationship is B2B or B2C. Mary Contrary experiences a power outage and call the electrical company. The agent determines the outage is local to the customer and scheduled a technician to Mary's house.

- ☐ **B2C**
- ☐ B2B

Question 53

If the CSM Demo Data Plugin has been installed what are two options either of which will prepare that instance to be used as part of the release path to production? (Choose two.)

- ☐ Zboot the instance
- ☐ Disable the Case Interceptor
- ☐ **Remove the Demo Data via a HI Request**
- ☐ **Clone back to this instance from a valid instance**

Question 54

What criteria can be used to determine when a new inbound case should be opened?

- ☐ When a new customer is created
- ☐ When an internal problem occurs
- ☐ When we have new marketing material for a customer
- ☐ **When a customer has a question or issue to resolve**

Question 55

From a service provider's perspective, is the following a product or an asset? A cable modem model that the service provider sells.

- ☐ **Product**
- ☐ Asset

Question 56

Entitlements specify the level of service provided to customers.

- ☐ **True**
- ☐ False

Question 57

What are the possible actions available in alert management? (Choose three.)

- ☐ **Execute remediation subflows**
- ☐ **Execute remediation workflows**
- ☐ **Launch applications**
- ☐ Evaluate business rule
- ☐ Create a service catalog request

Question 58

Which of the following are best practice with regard to data imports? (Choose two.)

- ☐ **When importing to multiple instances import to each instance separately.**
- ☐ Use ServiceNow automatic functionality to clean the data after it is in ServiceNow tables rather than in the legacy repository.
- ☐ Ensure the field data lengths in ServiceNow are adequate for the imported data because ServiceNow does not automatically adjust the length.
- ☐ **Images embedded in Knowledge Articles should be uploaded separately.**

Question 59

Cost Information on cases is available as part of the Performance Analytics Content Pack for Customer Service.

- ☐ True
- ☐ **False**

Question 60

Which feature enables you to quickly identify high-priority tasks based on multiple dimensions, not just by a single field value like priority?

- ☐ Case Performance
- ☐ Case Analytics
- ☐ Case Digest
- ☐ **Case Spotlight**

Question 61

During which Now Create stage are workshops conducted?

- ☐ Execute
- ☐ Initiate
- ☐ Deliver
- ☐ **Plan**
- ☐ Close

Question 62

Which application must be activated to enable customers to check in on-line for future appointments?

- ☐ Business Location
- ☐ **Walk-Up Experience**
- ☐ Field Service Management
- ☐ Service Organization

Question 63

What are some of the influencing factors that will help determine the type of customer support desk structure required? (Choose four.)

- ☐ **Knowledge and skills required for agents**
- ☐ **Geographical location of customer**
- ☐ **Languages spoken by agents**
- ☐ Number and type of support tools available
- ☐ Number of customer service portals used
- ☐ **Number of agents required**

Question 64

When activating the Customer Service Management Demo Data plugin, which case type is available besides product case?

- ☐ **Order**
- ☐ Contract
- ☐ FAQ
- ☐ Monitoring
- ☐ Request
- ☐ Billing

Question 65

What's the purpose of the Deactivate Special Handling Notes Scheduled Job?

- ☐ Runs at the end of the month and deactivates all Special Handling notes more than 30 days old
- ☐ Runs weekly and must have the Active checkbox unchecked in order for Special Handling notes to be deleted by the end of the week
- ☐ Runs on demand by the System Admin who must set specific weekly schedules and set only those that are priority 1-critical to be deactivated
- ☐ **Runs daily at midnight, checks all active alerts and sets the status to Expired for those that have reached their expiration dates**

Question 66

What does the Agent Whisper function do?

- ☐ **Lets agents and chat supervisors have a conversation without the requester knowing**
- ☐ Lets the chat supervisors have a conversation with the requester without the agent knowing
- ☐ Lets agents have chat conversations with other agents without the requester knowing
- ☐ Lets agents and requesters have a conversation without the chat supervisor knowing

Question 67

Upon self-registration through the Consumer Service Portal, a record is created in: (Choose two.)

- ☐ Contact (customer_contact)
- ☐ **Consumer User (csm_consumer_user)**
- ☐ **Consumer (csm_consumer)**
- ☐ CSM User (csm_user)

Question 68

Who can create a customer service case from a community discussion? (Choose two.)

- ☐ **Customer service agent (sn_customerservice_agent)**
- ☐ **Proxy case creator (sn_customerservice.proxy_case_creator)**
- ☐ Partner (sn_customerservice.partner)
- ☐ Case Viewer (sn_customerservice.case_viewer)

Question 69

The assignment workbench uses configurable matching criteria to evaluate agents in a selected group and provide an overall ranking. What are the different types of criteria available for the assignment workbench? (Choose three.)

- ☐ Correlation
- ☐ **Scripted**
- ☐ **Simple Match**
- ☐ **Aggregate**

Question 70

Which of the following best describes how the CSM application uses the Asset table?

- ☐ CSM uses the Product table instead of the ITSM Asset table
- ☐ CSM uses the Product Model table instead of the ITSM Asset table
- ☐ **ServiceNow uses the same Asset table for both CSM and ITSM, however CSM has a different subset of fields**
- ☐ Because CSM Assets are managed differently from ITSM Assets ServiceNow uses different Asset Tables for CSM than it does for ITSM

Question 71

What are the types of matching criteria for Customer Service? (Choose four.)

- ☐ **Matching Skills**
- ☐ **Last Assigned**
- ☐ Certifications
- ☐ Distance
- ☐ **Assigned Cases**
- ☐ **Availability Today**
- ☐ Partner Hours

Question 72

What is a supported external customer that, in turn, sells to and supports one or more customers?

- ☐ **Partner**
- ☐ Account
- ☐ Contact
- ☐ Consumer

Question 73

Customer Service Trending Topics is a capability that enables companies to use Predictive Intelligence to quickly pinpoint factors driving up case volume and act to mitigate them. Which of the following would be a benefit of using Predictive Intelligence Customer Service Trending Topics?

- ☐ Eliminate the need for more traditional performance analytics
- ☐ **Auto-generate clusters of cases that point to similar underlying issues**
- ☐ Create root cause solutions for similar cases
- ☐ A guaranteed reduction in call volume per month

Question 74

Which ServiceNow applications can be integrated out-of-the-box with CSM? (Choose three.)

- ☐ **Service Portfolio Management**
- ☐ **Project Management**
- ☐ DevOps
- ☐ **ITOM Event Management**
- ☐ Risk Management

Question 75

Which of the following are benefits that may be gained from using communities? (Choose three.)

- ☐ **Reduce support costs**
- ☐ **Engagement with Customers**
- ☐ **Get product feedback**
- ☐ Reduce cost per sales
- ☐ Increase marketing effectiveness

Question 76

External content integration is important for agents to be able to access knowledge articles from external sources. ALL external sources must be:

- WebDAV-versioned
- Web-configurable
- **WebDAV-compliant**
- Web-based

Question 77

An Account Relationship is based on a defined account relationship type. Users with the System Administrator role can define two types of relationships: (Choose two.)

- Partner-to-customer
- **Account-to-customer**
- Customer-to-Consumer
- **Partner-to-account**

Question 78

Which knowledge records can be configured with User Criteria?

- Knowledge Base
- **Knowledge Base and Article**
- Knowledge Base and Category
- Knowledge Base, Category and Article

Question 79

When the virtual agent plugin is installed NLU is activated but is not available for use until what two configurations are completed? (Choose two.)

- **Choose the NLU service provider**
- In the NLU Settings configure the Intent confidence threshold
- **Enable NLU in Virtual Agent**
- In the NLU Settings configure the Entity confidence threshold

Question 80

An entitlement defines the types of support a customer receives. Entitlements are based on a number of standard fields such as product and asset. When Proactive Customer Service Operations is implemented which additional fields could be used? (Choose two.)

- Contact
- Configuration Item
- Business Service
- **Install base item**
- **Sold product**

Question 81

When implementing Knowledge Product Entitlements, what is enabled when activating the Enable access control of Knowledge Articles system property?

- Allows access to knowledge articles based on customer's security access

- Allows access to knowledge articles that are related to entitlements owned by a customer
- **Allows access to knowledge articles that are related to products owned by a customer**
- Allows access to multi-product line knowledge articles

Question 82

Advance Work Assignment assigns work to agents based on their availability, capacity, and skills. Agent Affinity enhances the Advanced Work Assignment process by adding additional agent details organized by affinity type. Which of these are these affinity types? (Choose three.)

- Skill seniority
- **Account team responsibility**
- **Historical**
- **Related task**
- Product expertise

Question 83

In Agent Workspace Chat, Agents have the ability to use quick actions to work more efficiently. What action does the /r quick action perform?

- Rejects an incoming chat and moves it automatically to the “General” queue
- Routes the chat towards another group
- **Uses response templates to insert as text in a conversation**
- Rolls up the current chat history towards an existing case

Question 84

Name a security benefit gained from using scoped applications:

- Prevents changes to tables without explicit permission from IT
- Prevents third party integrations
- **Limits accessibility to other applications in the instance**
- Limits the number of update sets that can be applied

Question 85

The CSM application has a feature that can be used to filter records in CSM-related tables which are accessible by users with CSM roles. This feature makes it unnecessary to create business logic for those persona access the data. What is this feature?

- **CSM Query Rules**
- Data Policies
- Filtered Lists
- Access Types

Question 86

In Advanced Work Assignment, what does the overflow assignment capability do, if defined?

- Uses matching and assignment rules to send work items to the agent with the highest availability

- **When one support group reaches capacity the work item is automatically routed to another group**
- Routes cases to different groups based on their skill set and availability
- Uses matching and assignment rules to send work items to the agent with the most capacity

Question 87

Which role must B2B and B2C customers obtain, at a MINIMUM, to access to a ServiceNow instance?

- **External (sn_external)**
- Account Contact (sn_customerservice.account_contact)
- Customer (sn_customerservice.customer)
- Case Creator (sn_customerservice.case_creator)

Question 88

Which Flow Designer flow can be used to automatically close resolved cases if customers do not respond within a specified time?

- Close Cases in Resolved state
- **Auto Close Resolved Cases**
- Resolved to Close State
- Move Resolved Cases to Closed

Question 89

What role can be assigned to employees who are not fulfillers, such as those in sales and services, or do not have other CSM-specific roles, but have a need to create cases on behalf of customers?

- Consumer (sn_customservice.consumer)
- Customer (sn_suctomservice.customer)
- External (sn_external)
- **Proxy Contact (sn_customservice.proxy_contact)**

Question 90

Proactive Customer Service Operations works Event Management to proactively monitor and fix issues affecting customers. It can also trigger case workflow's and enable organizations to notify customers whose services or products are impacted by an outage or issue. What are the three main components that make up Proactive Customer Service Operations? (Choose three.)

- Proactive Prevention
- **Service-Aware Install Base**
- **Proactive Case**
- Service Reporting
- Service-Aware CMDB
- **Service Monitoring**

Question 91

Which roles are considered external? (Choose two.)

- Consumer Support Agent (sn_customerservice.consumer_agent)
- Customer Service Agent (sn_customerservice_agent)
- **Customer Admin (sn_customerservice.customer_admin)**
- **Partner Admin (sn_customerservice.partner_admin)**

Question 92

The default configuration automatically closes resolved Cases after how many days?

- 5 days
- **Cases are not automatically closed by default**
- 3 days
- 10 days

Question 93

What do blue circles in the timeline of a case form represent?

- Triggered SLAs
- Activity updates
- **State changes**
- Customer comments

Question 94

What are the different resource matching methods on the Matching Rule form? (Choose four.)

- History
- **Scripted**
- **Advanced**
- **Simple**
- Skill
- **Selection Criteria**

Question 95

Which of the following child case states would cause parent - child case synchronization to fail? (Choose three.)

- **Resolved**
- In Progress
- Awaiting Info
- **Closed**
- New
- **Cancelled**

Question 96

External customers can view the problem, change, and request records associated with their customer service cases from the Customer and Consumer Service Portals. Which of the following can they approve in relation to cases via the portals?

- Request Records and Escalations

- **Change Records and Request Records**
- Problem Records and Escalations
- Problem Records and Incident Records

Question 97

Playbooks for CSM provide step-by-step guidance for resolving specific types of customer service cases. What are the three out-of-the-box playbooks for CSM? (Choose three.)

- **Case playbook for Onboarding**
- Case playbook for Services
- **Case playbook for Product Support**
- **Case playbook for Complaints**
- Case playbook for Billing

Question 98

Based on which out-of-box attributes can Special handling Notes be applied to cases? (Choose three.)

- Service Contract
- Install Base Item
- **Product**
- **Account**
- **Contact**

Question 99

As an agent you can report a knowledge gap, if you cannot find relevant articles that could help resolve a case. Which action is required to create the knowledge gap?

- Document the knowledge gap in the case work notes and escalate the case
- Post a question in one of the various Customer Service Management knowledge bases
- **Use Related Links on the case form to report a knowledge gap**
- Use the Create Knowledge button on the case form to report a knowledge gap

Question 100

What feature does the Product Model and Catalog Items Relationship plugin enable?

- Agents are automatically proposed catalog items related to the chosen product on the case form
- Consumers can track what products they have purchased via the catalog
- **It provides a contextual service catalog based on the customer's subscribed services**
- Customer service managers can track the financial cost of customer's subscribed services and the related requests

Question 101

What happens to a case whenever the state of one of the associated IT Service Management records (incident, problem, change) is updated?

- The case escalates to an assignment group as defined in the default escalation template
- **The case work notes are updated automatically**

- The case action status changes to Related Task Updated
- The case displays a special handling note highlighting the update

Question 102

Application Scoping from a security perspective brings the following benefits: (Choose two.)

- **Improves instance security by limiting access to other applications on the instance**
- Scoped applications prevent versioning for complex instances
- **Scoping hold the records and acts as a container for the desired CSM applications**
- Scoped applications limits autonomy and control of all aspects of the CSM application

Question 103

How can multiple service catalogs be made available on the Customer Service Portal?

- **Include them in the list of service catalogs on the Customer Service Portal record**
- Add them to the list of service catalogs in the Customer Service Portal header widget options
- Only the Customer Service service catalog can be used on the Customer Service Portal
- Create user criteria for each of the applicable service catalogs

Question 104

From which one of the following can an agent create a CSM Case:

- Human Resource Application
- Incident Management
- **Chat**
- Special Handling Note

Question 105

Using the out-of-the-box major issue management process flow, a consumer service agent proposes an existing case in the Open state as a major case candidate. The major case candidate has a consumer defined and is approved by the customer service manager What happens to the major case candidate?

- The major case candidate becomes a major case
- **A new major case is created and the major case candidate is added as a child to the major case**
- The major case candidate requires an approval from the major issue manager
- The major case candidate is closed and a new major case is created

Question 106

What types of escalation templates can be created? (Choose two.)

- **Case**
- Sold Product
- Consumer
- **Account**

Question 107

What is the specific type of catalog item called that allows users to create task-based records, such as case records, from the Service Catalog?

- ☐ Request Item
- ☒ **Record Producer**
- ☐ Catalog Processor
- ☐ Case Template

Question 108

Out-of-box, which functionality handles state transitioning for case management?

- ☐ Workflows
- ☐ Business Rules
- ☒ **State Flows**
- ☐ Flows

Question 109

Which of the following are benefits of customer access management? (Choose two.)

- ☐ It defaults the responsibility for access management to the customer service agent.
- ☐ It increases security by automatically providing access to case information based on account hierarchy
- ☒ **It increases automation by automatically granting access to cases based on access to sold product**
- ☒ **It improves the customer experience by enabling related parties to track and collaborate on cases.**
- ☐ It defaults the responsibility for access management to the customer.

Question 110

What are the advantages of leading indicators over lagging indicators? (Choose two.)

- ☐ Hard to influence
- ☒ **Prospective**
- ☐ Retrospective
- ☒ **Easy to influence**

Question 111

Customer Service Management Administrators can delegate Contact Administration activities to specific contacts within accounts by assigning specific roles to one or more users. Which of the following roles, if assigned, would allow the user to create contacts?

- ☐ Customer case manager (sn_customerservice.customer_case_manager)
- ☐ Customer account manager (sn_customerservice.customer_account_manager)
- ☒ **Customer admin (sn_customerservice.customer_admin)**
- ☐ Customer (sn_customerservice.customer)

Question 112

What is knowledge article versioning?

- ☐ A content tracker for knowledge articles
- ☐ A knowledge article publishing guide
- ☒ **The ability to manage and track article updates**
- ☐ A knowledge article numbering guide

Question 113

Service providers use business models to support their various customers. What type of customer is supported with the Business-to-Consumer (B2C) model?

- ☒ **Individuals**
- ☐ Partners
- ☐ Contacts
- ☐ Accounts

Question 114

When configuring email in Communication Channels, how many outgoing email addresses are supported?

- ☒ **One**
- ☐ Two
- ☐ Three
- ☐ Unlimited

Question 115

Which of the following roles have permission to create a relationship between a contact and an account? (Choose two.)

- ☐ sn_customerservice_agent
- ☒ **sn_customerservice_manager**
- ☐ sn_customerservice.customer_admin
- ☒ **admin**
- ☐ sn_customerservice.partner_admin

Question 116

In CSM Asset Management has a different meaning than in ITSM or Corporate Finance. Which of the following defines Asset Management in CSM?

- ☐ The process of developing, operating, maintaining, upgrading, and disposing of assets in the most cost-effective manner
- ☐ A generic activity or process responsible for tracking and reporting the value and ownership of assets throughout their lifecycle
- ☒ **Asset management has different use cases for tracking specific products or services customers are using**
- ☐ It includes all of the data crucial to support customers as efficiently as possible

Question 117

What is KCS (Knowledge Centered Services)?

- A bunch of tables strictly pertaining to CSM case articles that focus on mapping articles to Knowledge management
- **A documented methodology to provide a set of best practices for creating and maintaining knowledge**
- A dashboard with specific visualization of the different knowledge bases and categories
- An application that helps agents and managers to create cases from Knowledge articles

Question 118

When creating or importing assets for CSM, model categories are used to: (Choose three.)

- **Define whether a Configuration Item (CI) is created when an Asset record is created or vice versa**
- **Group assets together**
- Build a classification structure for product models
- Model the configuration options for each product model being sold to customers
- **Define a link between Asset classes and Configuration Item (CI) classes**

Question 119

Viewing a customer's install base in the CSM Workspaces enables customer service agents to: (Choose two.)

- Close an upsell of related products and services not yet purchased by a customer
- **See the detailed configurations of the products and services deployed for a customer to determine the action needed**
- **Trace Information provided in a case to the right product or service to which it relates**
- Monitor related operational services and configuration items that affect service health

Question 120

Benefits of Proactive Customer Service Operations include: (Choose two.)

- **Reduced inbound calls from customers**
- Reduction in staff turnover
- Major cases can be eliminated as there will be no Impact to customers
- **Reduced Mean Time To Resolve (MTTR)**
- Guaranteed increase in customer satisfaction

Question 121

What features are included with the Customer Service Portal? (Choose three.)

- **Header with links for different customer activities such as creating a case**
- **Search feature to get information from several repositories**
- **Links to information sources such as the knowledge base, community and customer support**
- Links to marketing promotions and product coupons
- The ability to create new accounts

Question 122

What does NLU stand for?

- ☐ Natural-Learning Usability
- ☒ **Natural-Language Understanding**
- ☐ Natural-Learning URL
- ☐ Natural-Language URL

Question 123

Out-of-the-box, cases are automatically closed after how many days?

- ☐ 3 days
- ☐ 5 days
- ☐ 10 days
- ☒ **Cases are not automatically closed by default**

Question 124

When are any changes to the platform considered a customization?

- ☐ When they require an implementation spread across all project phases
- ☐ If they are NOT applied through the usage of built-in tools on the Now Platform
- ☐ When they are solely implemented for a custom application
- ☒ **When there are business demands for custom functionality that is not offered out-of-the-box**

Question 125

Which solution must be implemented to let a breakdown dashboard appear as a pop-up window on the case form?

- ☐ Service Analytics
- ☒ **In-form Analytics**
- ☐ Case Spotlight
- ☐ CSM Prediction Results

Question 126

The case digests feature includes which types of case communication? (Choose two.)

- ☐ Case Lifecycle Reports
- ☒ **Case Action Summaries**
- ☒ **Post Case Reviews**
- ☐ Case Post Mortem

Question 127

By default what can customers with the customer (sn_customerservice.customer) role see on the customer service portal? (Choose three.)

- ☒ **Assets**
- ☒ **Publications**

- ☐ **Products**
- ☐ Contacts
- ☐ Contracts

Question 128

Which feature allows an agent to copy reusable messages to case or task forms to provide quick and consistent messages to users?

- ☐ Quick Messages
- ☐ Quick Actions
- ☐ **Response Templates**
- ☐ Templates

Question 129

In the Customer Service Management space what defines the term asset?

- ☐ A physical item
- ☐ **A specific product instance supported for a customer**
- ☐ A product that a company supports
- ☐ A resource that allows a business service

Question 130

Which capabilities does the integration with Microsoft Outlook add-in offer? (Choose two.)

- ☐ Escalate a case on the add-in panel of Outlook
- ☐ **Register the sender of an email as contact**
- ☐ As the Microsoft Outlook user, register yourself as self-contributor
- ☐ **Create cases using email content in Outlook for the customer contact**

Question 131

Which service catalogs are available out-of-the-box in the customer portals? (Choose two.)

- ☐ Partner Service
- ☐ **Customer Service**
- ☐ **Consumer Service**
- ☐ Product Service

Question 132

Partner admin (sn_customerservice.partner_admin) contacts have access to:

- ☐ Their customer account
- ☐ Their partner accounts
- ☐ **Both**
- ☐ Neither

Question 133

From a security perspective, scoping brings several benefits: (Choose two.)

- ☐ **Improves instance security by limiting accessibility to other applications on the instance**
- ☐ Provides CSM teams the autonomy and control needed to configure and manage the CSM application, but not the CSM Service Portals
- ☐ IT can manage and control the pace of the CSM teams because dependencies have been put in place
- ☐ **The scope holds the records and acts as a container for the desired Customer Service Management Applications**

Question 134

Advanced Work Assignment (AWA) pushes work to qualified agents using work item queues, routing conditions, and assignment criteria that you define. Which step would ensure the work was allocated to the appropriate agent?

- ☐ Set the Agent Experience (What agents see in their Workspace inbox)
- ☐ **Define Assignment Rules (How to assign work items)**
- ☐ Define Work Item Queues (Where to route)
- ☐ Configure Service Channels (What to route)

Question 135

What action can be performed by a Partner Admin (sn_customerservice.partner_admin) and NOT by a Partner (sn_customerservice.partner) in the Customer Service Portal?

- ☐ Can view assets belonging to their partner accounts
- ☐ Can create, view, and edit cases for their partner accounts
- ☐ Can resolve cases reported by their partner accounts
- ☐ **Can create and update contacts for their partner accounts**

Question 136

What is a household entity?

- ☐ Group of users that usually share a common address and use services as a group
- ☐ Group of people that usually share a common address and use services as a group
- ☐ Group of customers that usually share a common address and use services as a group
- ☐ **Group of consumers that usually share a common address and use services as a group**

Question 137

Why does the implementation team need to deliver core functionality to the customer as quickly as possible?

- ☐ To expand the technical reach
- ☐ To facilitate the requirement gathering during the workshops
- ☐ To complete any complex customizations early enough
- ☐ **To realize near-term ROI (Return on Investment)**

Question 138

Assignment workbench enables customer service managers to assign tasks to agents via configurable criteria known as Matching Rules. Which out-of-the-box configurable criteria can be used? (Choose three.)

- **Assigned Cases**
- Agent Affinity
- **Availability Today**
- **Matching Skills**
- Agent History

Question 139

Configuration items (CIs) are entities that capture the individual configurations for each product sold to the customer. CIs are stored in the configuration management database (CMDB). Assets are specific product instances that are supported for a customer. Which of the following statements is correct for CIs and assets?

- The contract and entitlements of an asset dictate whether or not it is stored in the CMDB
- The CMDB only tracks CIs, assets cannot be CIs
- **While the CMDB may track some assets as configuration items (CIs) not ALL assets are CIs**
- The CMDB tracks all assets as configuration items (CIs)

Question 140

Regarding Account Teams, what is the purpose of marking a role as 'unique'?

- The role then becomes a child responsibility
- Ensure there is a dedicated account manager for that account
- **Prevent the same role being used on different customer accounts**
- The role then becomes a parent responsibility

Question 141

Which of the following statements is correct when the 'Contact Local Time' field is enabled in a case form?

- The field is not based on the customer's profile time zone
- **Agents can use the field to identify if it is the right time to contact customer**
- The field is active in the base form
- The field is always based on the system time zone

Question 142

Which of the following roles can update a consumer's record? (Choose two.)

- **Consumer Support Agent (sn_customerservice.consumer_agent)**
- **Customer Service Manager (sn_customerservice_manager)**
- Customer Service Agent (sn_customerservice_agent)
- Customer (sn_customerservice.customer)

Question 143

Which CSM Configurable Workspace feature enables agents to quickly view records in the contextual side panel without switching tabs?

- Contextual Search
- Agent Assist
- **Dynamic Related Records**

- Record Information

Question 144

With the Auto Close Resolved Cases flow enabled, and using its default settings, when will a reminder be sent to a non-responsive customer?

- After 3 days
- **After 5 days**
- After 1 day
- After 7 days

Question 145

The self-registration feature enables new customer contacts to submit registration requests from the customer portal. Which role is responsible for creating the unique registration code for each account?

- **System administrator (admin)**
- Customer Service Manager (sn_customerservice_manager)
- Service organization administrator (sn_customerservice.service_organization_admin)
- Customer admin (sn_customerservice.customer_admin)

Question 146

What action is required to enable agents to create an incident record for a case?

- They must be assigned with the read role for incident
- **They must be assigned with the itil role**
- They must be assigned with the snc_intemal role
- They must be assigned with the sn_customerservice.itsm_contributor role

Question 147

In the 'Action Status' column on a case list what could a red indicator dot mean? (Choose two.)

- Blocked by approval
- Blocked by case task
- **Blocked internally and by customer**
- **Blocked by internally**

Question 148

When the channel field on a case form is set to Social where are details of the social media conversations related to the case stored?

- Social Channels
- Social Profiles
- **Social Logs**
- Work notes
- Additional comments

Question 149

Once a major case candidate is approved a major case is created. What then happens to the customer case?

- ☐ **The customer case becomes a child case of the major case**
- ☐ The customer case will be automatically closed
- ☐ The customer case becomes the parent case of the major case
- ☐ The customer case will automatically be related to a problem

Question 150

What are the types of units used to measure entitlements? (Choose two.)

- ☐ **Hours**
- ☐ Contract
- ☐ Cost
- ☐ **Case**

Question 151

How are ServiceNow's out-of-the-box Customer Service Management applications packaged? (Choose two.)

- ☐ **Store Apps**
- ☐ Update Sets
- ☐ Through private scopes
- ☐ **Plugins**

Question 152

Which of the following statements is correct regarding product models in CSM?

- ☐ Products models can only contain digital (logical) items
- ☐ Product models can contain either physical items or digital (logical) items but not both in the same model
- ☐ Product models can only contain physical items
- ☐ **Product models can contain both physical items and digital (logical) items in the same mode**

Question 153

Which of the following is correct regarding the create contact (consumer) feature in CSM Workspaces?

- ☐ The create contact (consumer) feature is available in all CSM Workspaces
- ☐ The create contact (consumer) feature is not available in any of the CSM Workspaces
- ☐ **The create contact (consumer) feature is only available in the CSM Configurable Workspace**
- ☐ The create contact (consumer) feature is only available in the Agent Workspace

Question 154

Depending on which CSM workspace you are operating within, certain steps can be applied to configure the form header. Which of the following is correct regarding form headers in the CSM Configurable workspace?

- The form header's secondary values can only be displayed above the ribbon components
- The form header's primary values can be displayed in the contextual side panes instead of above the ribbon components
- **The form header's secondary values can be displayed in the contextual side panel instead of above the ribbon components**
- The form header for the case form can display five levels of field values from the case table

Question 155

User criteria records may be applied to which knowledge items?

- Knowledge Base and Category
- Knowledge Base Category and Article
- **Knowledge Base and Article**
- Knowledge Base

Question 156

What are the three main components that make up Proactive Customer Service Operations? (Choose three.)

- **Service Monitoring**
- Service Reporting
- Service-Aware CMDB
- **Service-Aware Install Base**
- **Proactive Case**
- Proactive Prevention

Question 157

What are the three out-of-the-box playbooks for CSM? (Choose three.)

- **Case playbook for Onboarding**
- Case playbook for Billing
- Case playbook for Accounts
- **Case playbook for Product Support**
- **Case playbook for Complaints**

Question 158

What are available matching criteria for case assignment in Customer Service Management? (Choose three.)

- Partner Hours
- **Matching Skills**
- Distance
- Certifications
- **Assigned Cases**
- **Availability Today**

Question 159

What is the purpose of the sidebar feature in CSM Configurable Workspace?

- Enables agents to keep information regarding details of the case visible at all times
- Enables agents to access response templates to help them resolve cases faster and more efficiently
- **To enable agents to collaborate with other agents or Subject Matter Experts (SMEs) in real-time for faster case resolution**
- Enables managers to discreetly monitor chats between agents and customers

Question 160

What is the specific type of catalog item that allows users to create any type of task, such as cases, from the Service Catalog?

- Request Item
- Service Catalog Request
- **Record Producer**
- Catalog Item

Question 161

Which feature sends an email notification containing a list of relevant knowledge articles to the case submitter and watchlist users associated with the case whenever a case is created?

- Trending Topics
- **Auto-Responder**
- Proactive Customer Service Operations
- Self-Service Analytics

Question 162

Depending on the CSM application configurations, cases can be assigned to agents manually or by using auto-assignment. Which routing and assignment features leverage matching rules? (Choose two.)

- State Flows
- **Assignment Workbench**
- **Assignment Rules**
- CSM Workspace

Question 163

What does Major issue Management use to identify all other customers impacted by a major case?

- Account lists
- Customer Product lists
- Notify lists
- **Recipient lists**

Question 164

Which of the following is correct regarding the social media a channel?

- Cases cannot be created from any of the social channels
- Cases are NOT created automatically from any of the social channels
- **Cases can be created automatically depending on which social channel is used**

- Cases are created automatically from all of the social channel

Question 165

When integrating Customer Service Management with IT Service management what separate action is required for Request Management?

- Activation of the Customer Service with Service Management plugin (com.sn_cs_sm)
- **Activation of the Customer Service with Request Management plugin (com.sn_cs_sm_request)**
- Activation of the Customer Service Case Action Status plugin (com.snc.csm_action_status)
- Activation of the Customer Service plugin (com.sn_customerservice)

Question 166

New case tasks use the following prefix:

- CSMTASK prefix
- CASETASK prefix
- **CSTASK prefix**
- No specific task prefix just existing TASK prefix

Question 167

When are child cases updated from the parent case?

- Clicking on the Child Sync UI
- Scheduled Job
- **Automatically upon update of parent**
- When the Sync scheduled job runs

Question 168

Which of the following features are specific to CSM Workspaces and will not be found in the Platform UI view? (Choose two.)

- Special handing notes
- **Lookup and verify**
- Related search
- **Agent assist**

Question 169

Customer service agents can use Agent Assist to search for information from an interaction. BY DEFAULT, what are the available search sources? (Choose three.)

- **Knowledge articles**
- **Service catalog**
- **Communities**
- Consumer service portal
- Customer service portal

Question 170

Entitlements are counted using two types of units:

- ☐ SLAs and contracts
- ☐ Days and assets
- ☐ Cases and products
- ☐ **Hours and cases**

Question 171

Service-aware Install Base consists of which entities? (Choose three.)

- ☐ **Installed Products**
- ☐ **Install Base Items**
- ☐ Assets
- ☐ **Sold Products**
- ☐ Configuration Items

Question 172

What is the primary output from the Requirements Gathering workshop?

- ☐ Schedules
- ☐ Use Cases
- ☐ **Stories**
- ☐ Personas

Question 173

What is a limitation regarding synchronization between a case and its associated work order?

- ☐ **If information changes on the Case form it is not updated on the Work Order form**
- ☐ Updates on a case or work order will only synchronize after the work order is approved
- ☐ When creating a work order from a case only the Account field on the work order form is filed in but not the Company field
- ☐ The data copied over to the Work Order form when creating a work order from a case cannot be configured or customized

Question 174

Which roles can propose a case as a Major Case candidate? (Choose three.)

- ☐ Proxy contact (sn_customerservice.proxy_contact)
- ☐ Customer case manager (sn_customerservice.customer_case_manager)
- ☐ **Customer service manager (sn_customerservice_manager)**
- ☐ **Customer service agent (sn_customerservice_agent)**
- ☐ **Major issue manager (sn_majorissue_mgt.major_issue_manager)**

Question 175

Which of the following is a required field in the Resolution Information tab in order to close a case?

- Cause
- Closed
- **Resolution notes**
- Closed by

Question 176

What benefits does scoping an application bring? (Choose three.)

- **CSM teams can move at their desired pace, independent of IT**
- **Provides CSM teams autonomy and control**
- **CSM application data and business logic is protected from changes by other applications**
- Account records can be changed only while in the CSM scope
- Changes in different scopes can be addressed in a single update set

Question 177

A customer service agent wants to escalate an account but is unable to use the Escalate Account related link on the Account form. What could be the reasons why the customer service agent is not able to use it? (Choose two.)

- No escalation approval flow is configured
- The parent account of the account to be escalated is not active
- **The customer service agent is not assigned with the escalation requester role**
- **The account already has an open escalation record**

Question 178

When working with communication channels, what inbound email flows are available by default? (Choose two.)

- Create case for product
- Create case for asset
- Update case from forward email
- **Create case from email**
- **Update case using reply**

Question 179

What determines how an escalation request is processed?

- Escalation Rule
- **Escalation Template**
- Escalation Severity
- Escalation Justification

Question 180

What are Special Handling Notes used for?

- **Bring important information about individual records to an agent's attention**

- For agents to view articles and attach them to a case
- To ensure customers get the service they are entitled to receive
- Help agents identify in which time zone a contact is located

Question 181

What will be the state of a case after a customer rejects the solution proposed by an agent?

- In Progress
- **Open**
- New
- Solution Rejected

Question 182

Installing the Customer Service Management plugin activates:

- Only one other plugin - Field Service Management Plugin
- No other Plugins
- Only two other plugins - Portal and Case Management
- **Many other plugins at the same time**

Question 183

What are benefits of the Conversation History feature? (Choose two.)

- **Shorter calls for agents by reducing the time to search for information**
- A customized admin chat toolbar with emojis for agents to use in chat messages
- **Improved customer satisfaction as agents can respond to and resolve customer issues faster**
- Better language management by flagging key words and alerting chat managers when agents use one or more of those words

Question 184

What is the benefit of a phased release approach?

- Team members' schedules are able to synchronize
- More time to develop stories
- Working across multiple systems of record
- **Delivery of core functionality quickly**

Question 185

What is the most efficient way to get cases to be closed automatically after a few days?

- Set the property `glide.auto.close.cases.resolved` to true
- **Activate the Auto Close Resolved Cases flow**
- Create a workflow associated with cases with a timer that changes the state after a few days
- Create a Scheduled job that looks at the `resolved_at` date

Question 186

Which roles can specify both skills and mandatory skills for cases and tasks? (Choose two.)

- ☐ **Customer service manager (sn_customerservice_manager)**
- ☐ **Customer service agent (sn_customerservice_agent)**
- ☐ Customer administrator (sn_customerservice.customer_admin)
- ☐ Partner (sn_customerservice.partner)

Question 187

A contact can submit a self-registration request from the customer portal with a registration code. Which of the following roles can approve the request? (Choose three.)

- ☐ Customer service manager [sn_customerservice_manager]
- ☐ **System administrator [admin]**
- ☐ **Customer administrator [sn_customerservice.customer_admin]**
- ☐ **Partner administrator [sn_customerservice.partner_admin]**
- ☐ Service organization administrator [sn_customerservice.service_organization_admin]

Question 188

What benefits can be gained by integrating CSM with Field Service Management? (Choose two.)

- ☐ Reduces agent workload
- ☐ Reduces monthly case volume
- ☐ **Work orders can be created from a case**
- ☐ **Customer can access work order details and tasks created for their case**

Question 189

Guided decisions is a decision authoring and execution capability that dynamically guides agents to resolve complex cases. Guided decisions consist of decision trees. What is a decision tree?

- ☐ A step-by-step methodology for creating and solving different case types
- ☐ A detailed check list for customer service teams
- ☐ **A multi-step process consisting of a series of questions, and guidance**
- ☐ A set of steps used to define a complex process

Question 190

In the 'Action Status' column on a case list, what could a blue indicator dot mean?

- ☐ **Needs attention**
- ☐ Blocked internally
- ☐ Blocked externally
- ☐ Work in progress

Question 191

The ServiceNow add-in for Microsoft Outlook enables you to manage workflows such as creating and updating contacts and cases from within Microsoft Outlook. How could this feature positively affect customer experience?

- As email is being used fewer agents would be required to create cases so service costs would go down
- It is easier to report on data in emails which means managers would be better placed to track performance
- **It can lead to taster resolution of customer issues and faster response to customer inquiries**
- It would guarantee less wait time for customers who chose to call the customer service center

Question 192

Which services does a Customer (sn_customerservice.customer) have access to? (Choose two.)

- **Can research questions issues, or problems, and create view and edit cases for only their own accounts**
- Can assign the roles to other contacts in the same account
- **Can view assets belonging to their account**
- Can edit information or roles for existing contacts

Question 193

To which recipient types can targeted communications (publications) be sent? (Choose two.)

- Outsourced Service Providers
- **Contacts**
- **Internal users**
- Households

Question 194

What does viewing a customer's install base enable customer service agents to do? (Choose two.)

- **See the detailed configurations of the products and services deployed for a customer to determine me action needed**
- Monitor alerts for operational services and configuration items that affect service health
- Close an upsell of related products and services not yet purchased by a customer
- **Trace information provided in a case to the right product or service to which it relates**

Question 195

When working with case types, what is the lowest level in the case type hierarchy called?

- Sub-level
- **Leaf-level**
- Decision-level
- Base-level

Question 196

Which roles are responsible for maintaining account team membership? (Choose two.)

- Customer Admin [sn_customerservice.customer.admin]
- Customer Case Manager [sn_customerservice.customer_case_manager]
- **System Administrator [admin]**
- **Customer Service Manager [sn_customerservice_manager]**

Question 197

What can a person assigned with the customer role access on the customer service portal by default? (Choose three.)

- **Cases**
- Related parties
- **Assets**
- Social profiles
- **Sold products**

Question 198

What is a case?

- An individual record that handles and resolves incidents for external customers
- An individual record that is used to identify and create automation opportunities
- **An individual record that is used to identify and resolve a question or issue for an external customer**
- An individual record that handles and routes issues for internal users

Question 199

What are the recommended good practices when running implementation workshops? (Choose three.)

- **Give the customers the data they need so they can make an informed decision**
- Any financial implication of a decision should be handled by the delivery and sales team
- Enforce customers to adapt their processes towards the baseline processes
- **Engage with customers to gain deep understanding of their organization**
- **Guide the customer toward industry best practices**

Question 200

Partner admin contacts have access to the data of both their partner accounts and customer accounts.

- **True**
- False

Question 201

A customer service manager would like to limit the reading and creation of knowledge articles within a specific Knowledge Base to the Customer Support group only. Which features should be used to accomplish this? (Choose two.)

- **Can Read user criteria**
- Whitelist all other groups from the Knowledge Base
- Hide the Knowledge Base from the Knowledge Base Portal
- **Cannot Contribute user criteria**

Question 202

Which predefined conversations are available for Customer Service Virtual Agent? (Choose two.)

- ☐ Create Contact
- ☐ **Check Case Status**
- ☐ Close Case
- ☐ **Get Help with an Order**
- ☐ Get Help with an Asset

Question 203

How many exit gates NowCreate have?

- ☐ 3
- ☐ 4
- ☐ **5**
- ☐ 6

Question 204

Which table must be extended when creating a new case type?

- ☐ **Case [sn_customerservice_case]**
- ☐ Case Task [sn_customerservice_case_task]
- ☐ Task [task]
- ☐ Case Type [sn_case_type]

Question 205

An account is a supported external customer and a contact is a user who is an employee of an account. How many accounts can a contact be associated with?

- ☐ **One**
- ☐ Two
- ☐ Three
- ☐ Multiple

Question 206

On the Customer Service Portal which personas can see work orders from their company hierarchy? (Choose two.)

- ☐ **Partner admin**
- ☐ Partner contact
- ☐ **Customer admin**
- ☐ Customer contact
